

TOOTH

A Tooth Fairy Tale's Token in The Toothnomics Era

A Hyper-Deflationary Token

whitepaper v.01

www.toothfairy.one

Overview

TOOTH A Hyper-Deflationary Token

It's a token that rewards investors for holding tokens while also implementing the brand-new Buyback contract characteristics.

- 1st tax is redistributed to holders - this is a reward for HODLing the token;
- 2nd - buyback tax - used for automatic buyback of the tokens;
- 3rd - marketing tax - goes to marketing & development fund.

WHAT IS BUYBACK?

In essence, a buyback is when a project, or company, uses its own cash resources to repurchase some amount of its tokens or shares from holders at market price. The repurchased assets are then stored on the wallets of the entity, not destroyed, and neither are they released back into circulation immediately.

If a stock has low value and the potential to perform better in the future, companies will often announce a buyback of the stock in the open market.

Once companies announce the buyback, investors gain more confidence to purchase and hold.

Additionally - the demand increases which ultimately will drive the price up

CHALLENGES

During this Pandemic, The world is become more complicated and it's hard to be a good person. It's time to Ignite yourself and others, to Be a Better Person.

Our community is made up of passionate people who want to make a difference in their ecosystem.

TOOTH Token

TOOTH dream is to inspire others doing Good Deeds, anytime and everywhere

Be the kind of people everyone wants to be around

We implemented next Generation tokenomics.

At TOOTH Token, we chose to apply the Buyback concept to cryptocurrency, and make our token more attractive to hold.

Our vision is to simplify the crypto world making it easier for new investors to maximize potential profits while inspire other doing a good deeds by implementing several investment strategies into TOOTH's token.

TOOTH Token is committed to rewards people that doing a good deeds.

“

I cannot do all the good that the world needs. But the world needs all the good that I can do.

- Jana Stanfield

Why Doing Good Deed

Research shows that doing nice things for others, acts of kindness, actually increases a person's positive attitude.

Offering an act of kindness doesn't have to cost a lot of money. It is the simple act of spending the time to show you care that really makes a difference. It also can make you feel better.

When people are kind to others, it not only improves the existing relationship but it also helps other relationships in your life.

It lowers anxiety levels and makes the individual who is performing the act of kindness happier.

ROADMAP

2021 July

Idea Development & Token Launch

The main idea of the project appears.

Discussing with Blockchain expert about the project idea

Website & Social Media representative setup

Deploying Smart Contract BEP-20

Pre-Sale Launched

2021 July - September, Aiming The First 1000 TOOTH Token HODLers

Pre-Sale 1st, 2nd and 3rd

Submit Bscscan Verification

Launch Pre-Sale 1st, 2nd and 3rd

Listing at Pancakeswap

Listing at PooCoin

Listing at LiveCoin Watch

Launch Public Sale

Liquidation Token Locked 6 months

10.000 TOOTH Token HODLers

Marketing & Advertising

- Submit to Coingecko & Coinmarketcap
- Nurturing Communities
- Building Influencer Network
- Adding more listings

100.000 TOOTH Token HODLers

Good People DApp

- Starting DApp Strategic Plan
- Planning Good People Project Development
- Hiring programmer for DApp Application

more than 250.000 TOOTH Token HODLers

NFT Project

Improve Whitepaper
Starting Ideas of TOOTH NFT Project

TOOTHNOMICS

We implemented next Generation tokenomics.

At TOOTH Token, we chose to apply the Buyback concept to cryptocurrency, and make our token more attractive to hold.

Whenever a sell occurs, a fraction of the 3% buyback amount is used to automatically purchase tokens from the liquidity pool. Those tokens are immediately burned after purchase.

There is Benefit from Buyback:

- **Raise in Value**, After the tokens from the Liquidity pool are bought, the new BNB amount is added to the pool and the amount of the tokens are reduced, which results in an increase in price.
- **Free BNB**, Once those tokens are burnt, it is like adding free BNB to the pool as there are no tokens to sell in the future.
- **Trust & Reliability**, Investors can be relentlessly hesitant and often get spooked by a bearish market. Because of the automatic buyback, investors will never see more than 2 sells in a row

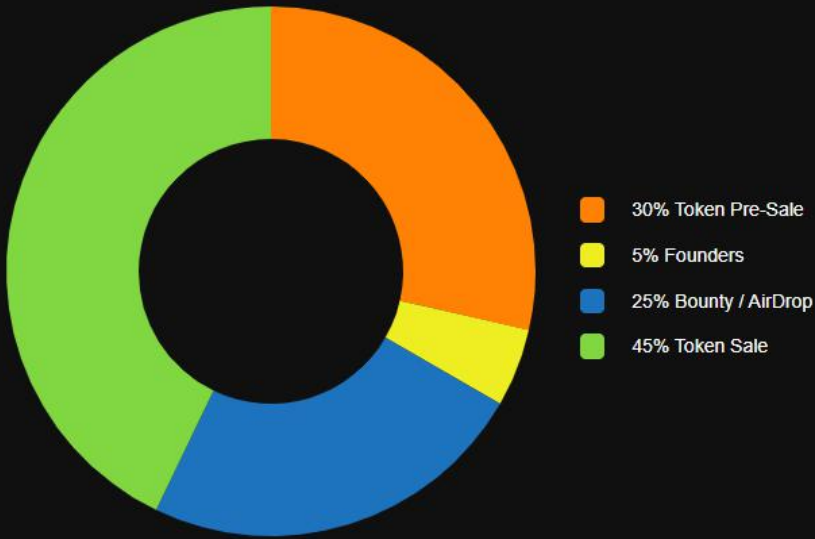

Fair Tax Breakdown:

- 3% Rewards to holders
- 3% Buy-back tax
- 3% Marketing tax

SYMBOL : TOOTH
 MAX SUPPLY : 1.000.000.000.000.000 TOOTH
 TYPE : BEP-20 (Binance Smart Chain)
 SOFT CAP : 33 BNB
 HARD CAP : 99 BNB

TOTHNOMICS DISTRIBUTION:

Token Pre-Sale

Date: July 20—August 31 (or as long as supply lasts)

Total token supply: 1 Quadrillion TOOTH

Total Hard Cap: 99 BNB = 9,9 trillion TOOTH

Soft Cap: 33 BNB = 3.3 trillion TOOTH

- ▶ Pre-sale: 300 trillion TOOTH = 3000 BNB
 - ▶ 25% Bounty/ AirDrop: for 250 trillion TOOTH
 - ▶ Founders 50 Trillion TOOTH.
 - ▶ The rest 450 Trillion TOOTH: is for sale in the market.
-
- ▶ Token sale: 450 trillion. TOOTH = 4500 BNB
 - ▶ Exchange: 1 BNB = 100.000.000.000 TOOTH
